

“Design a doll” Competition using waste materials

ISA Activity “Design a Doll” for parents and their ward was held on the Saturday, 16.11.19.

It was one of the most awaited activities for the students and parents. Many parents turned up for the day, though it was a working day for many. The main purpose of this activity was to strengthen the bond between parents and their children when they work as a team. They got an opportunity to observe the talents, creativity and hidden talents of their competitors. They all came well prepared for the activity and showcased their creativity using waste materials. Children assisted their parents patiently giving their innocent and valuable suggestions.

The competition was judged by our eminent administration In charges- Ms. Divya Kohli & Ms. Ruchika. The winners were judged on the basis of creativity, neatness, best use of waste materials and presentation. The students were given gifts as a token of appreciation and all the contestants were presented a sapling.

The competition was a huge success and was graced by Principal Mrs. Sudha Rampal. She appreciated the work of parents and urged them to continue with the cooperative spirit and support the school.
